

## **EL GALEÓN 1600 - ... sounds of a different world**

„*El Galeón 1600*“ represents the voyage between two worlds: a journey taken by many after the European conquest of Latin America. Whether rich or poor, aristocrat or slave, the travelers carried their cultural heritage with them which resulted in a unique blend of traditions of the Southern and Northern hemispheres. *Los Temperamentos* traces their path in a musical way as they revive those travelers' lively spirit for adventure and nostalgia for the past with an extraordinary repertoire of sentimental songs as well as lively Tonadas and instrumental music. Baroque music from Italy and Latin America will be performed to convey the complex mix of musical traditions that emerged in this eventful century.
